

Meeting Agenda

Date: 07/04- 2017

Chair: Jonathan Gildevall

Participants: Peter Gärdenäs, Erik Magnusson, John Segerstedt, Jonathan Gildevall

1. Objectives

- Nothing at this time

2. Reports

- Peter has:
 - Has started to familiarize himself with the library db4o
 - Did the GUI views assigned to him at the last meeting
- Erik has:
 - Did his assigned views and the navigation needed to switch between them
 - Didn't finish the advanced search view due to lack of time
 - Helped with the other parts of the navigation in the application
- John has:
 - Did his views, also made some parts of the model needed for it. Managed to steal other people's assignments in the meantime...
 - Had some git issues but managed to solve it
- Jonathan has:
 - Built his part of the views and then built some of the navigation needed to move around in the GUI
 - Redid some of John views to work with the ones he made

3. Discussion items

- Added a lot of git issues, more will be added as we go along during the break

4. Outcomes and assignments

- Assignments will be solved by those who have time for it during the break. No assignments are mandatory for any group member.

5. Wrap up

- Next meeting will be sometime after all group members have returned from vacation and other break duties.
