Meeting Agenda

Date: 11/05 - 17

Chair: John Segerstedt

Participants: Peter Gärdenäs, Erik Magnusson, John Segerstedt, Jonathan Gildevall

1. Objectives

2. Reports
   ● Peter has: Refactored Favorites activity into MVC, Written on the SDD, almost finished getting amount of searchers for Chalmers accommodations.
   ● Erik has: Started working on implementing SearchWatcher. Started working on the SDD.
   ● John has: Implemented advanced search functionality. DId a sequence diagram of a simple search.
   ● Jonathan has: Finished apply procedure for Chalmers and built help classes for the navigation and recycleView to reduce code duplication Written a bit on the SDD

3. Discussion items
   ● Region implementation → All of chalmers except for lindholmen(North) is Centrum
   ● "uppladdningsdatum" and "sista anmälningsdag"? → Show last day in listView, both should be searchable, save as String
   ● Searching on maximum people that have already applied? -> Move from listview to object view. Replace with "sista anmälningsdag"
   ● Advanced search resets after a search has been done. Intentional? -> Read in from last Search done
   ● Remove "Alla"-button and have empty search result in all
   ● Last searches implementation. -> Nothing has been decided. Have to be revisited
   ● Remove Android imports from Model
   ● No circular dependencies
   ● List handling during searching for favorites and swipe between objects

4. Outcomes and assignments
   ● Peter will: Refactor
   ● Erik will: Implement SearchWatcher, fix objectView swiping using all accommodations at all times.
   ● John will: Fix Region, and implement "uppladdningsdatum" and "sista anmälningsdag"
   ● Jonathan will: Look at accommodationView, fix favorites for recycleView,

5. Wrap up
   - Next meeting 15/05-2017 at 11:00
