Meeting Agenda

Date: 15/05 - 17

Chair: Peter Gärdenäs

Participants: Peter Gärdenäs, Erik Magnusson, John Segerstedt, Jonathan Gildevall

1. Objectives
   ● Activity creation, activities seems to be created each time they are used rather than being build to call onCreate each time.

2. Reports
   ● Peter has: Refactored favorites and removed bugs from it. Refactored and created background tasks. Refactored image model. Broke some circular dependencies. Refactored MainModel to a help method instead of a model.
   ● Erik has: Fixed ObjectViews all using the same list of Accommodations, now works for searches and favourites. Added functionality for creating searchWatchers, doing searches with searchWatchers in the background and sending notifications with new matches.
   ● John has:
       ○ Made the search function less sensitive
       ○ The advanced search filters now do not default blank after a search
       ○ Implemented Regions, sort of
       ○ Implemented "uploadDate" + "lastApplyDate" with SGS but not yet with Chalmers. (See below)
   ● Jonathan has: Changed the way favorites are handled when swiped, they now use the dataset instead of the whole list as reference. Also looked at the object view realising the data needed isn't available in accommodation and wondering how much time we should spend rebuilding that view.

3. Discussion items
   ● Chalmers → "uploadDate" + "lastApplyDate"
   ● SGS → ObjectArea(), formatting?
   ● Empty mainSearch
   ● Last searches implementation
   ● List handling during searching for favorites and swipe between objects
   ● Unused models
   ● Replace "Alla" button with sortButton/dropdown.
   ● Object activity should include
       ○ Owner
       ○ Street
       ○ Location
       ○ Area
       ○ Size
       ○ Description

- ○ Möblerat/omöblerat
- ○ price
- ○ Images? Planlösning?

4. Outcomes and assignments
- Peter will: Help John to look up uploadDate. Continue refactoring/bugfixing/creating tests. Will look into activity create problem.
- Erik will: Finish SearchWatcher functionality and visuals. Refactor.
- John will: Fully implement uploadDate + lastApplyDate + ObjectArea(). Fix empty search → all accommodations.
- Jonathan will: Complete object activity, make sure favorites swipe actually work, Replace "Alla" button with sortButton/dropdown. Replace icons with google icons

5. Wrap up
- - Next meeting 18/05-2017 at 10:00
